

Sant Cugat del Vallès, 01<sup>th</sup> October 2021

Dear Valued distributor,

We have analyzed the rotation of all our products during the last years and with the intention of improving the efficiency and general management of our portfolio and continue bringing value to our partners, we have decided to declare the “End of Life” (EoL) of the following Part Numbers. To keep end costumers fully covered, we suggest alternatives antennas that can be used to replace the eliminated ones.

ANTENNA EoL (Part Number)	ALTERNATIVE SUGGESTED (Part number)
NN02-250	NN02-224
NN02-232	NN02-224

According to the clause *12.a Discontinued Products* in the Distribution Agreement signed 25<sup>th</sup> March 2019, this communication starts the six months’ notice period. You’ll be allowed to place Purchase Orders for the affected part Numbers until 20<sup>th</sup> August 2021.

Of course, if any customer is willing to receive specific technical support for his project, Fractus Antennas will be pleased to assist them, they can contact us by the following email [support@fractusantennas.com](mailto:support@fractusantennas.com)

Sincerely,

Albert Vidal

Supply Chain Manager
